

TAKE CONTROL OVER YOUR PROJECTS NOW!

WEB COLLABORATION INFORMATION SYSTEM

ACCESS | AUTOMATION | ACCOUNTABILITY | AUDIT TRAIL | ANALYTICS

SMART IDEAS

Unparalleled features for a low price. Manage work-orders, RFIs, issues, transmittals and more. PHAZE® enables your company to compete with the same tools larger organizations leverage.

FIVE Aze = PHAZE™

Successful projects leverage **Access** to one collaborative workspace, **Automation** to create operational efficiencies, **Accountability** to ensure the jobs get done, **Audit Trails** to enable transparency and discovery, and **Analytics** for improved business decision making. The **Five A's** are valuable features enabled in PHAZE®.

CONFORMANCE QUALITY DELIVERY

PHAZE™ provides accountability, by way of workflow automation. Standardized process steps assure ball-in-court responsibility. PHAZE® also establishes an audit trail for every action taken in the system.

BUSINESS ANALYTICS

PHAZE® delivers project decisions in real time. Dashboards, reports, and easy to navigate menus are all provided via mobile phone, smart device, and desktop platforms.

ABOUT US

PHAZE® evolved from over twenty-five years of successfully delivering Internet-based collaboration solutions to thousands of stakeholders across the United States and Canada. Our Web Collaboration Information System (WCIS) experience is award winning. Our experience is expanding globally.

WHY CHOOSE US ?

PHAZE® solves business challenges for clients in the Architectural, Engineering, Construction and Facilities Maintenance industries. With award-winning and industry leading knowledge, PHAZE® delivers the benefits of the FIVE A's in a simple, low cost and easy to stand-up platform.

PHAZE® is a Greg Bush Enterprises, Inc. solution. Developed and supported by KFA, Inc., which is the U.S. Department of Commerce's 2020 MBDA Minority Innovative Technology Firm of the Year.
